Ozone Working Group

Working together to reduce ground-level ozone in the Bay Area

During 2003 and early 2004, BAAQMD, in cooperation with MTC and ABAG, will be preparing the 2004 Ozone Attainment Strategy and the 2003 Clean Air Plan — the region's strategies for attaining the national and California health-based 1-hour ozone standards.

We invite all interested individuals and organizations to join the Ozone Working Group (OWG). The OWG meets approximately every other month to discuss and provide input on different elements of this regional planning process.

The next OWG meeting will take place on October 28, 2003.

Meeting agenda and materials will be available at our website approximately two weeks before the meeting.
